SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection. The National Oceanic and Atmospheric Administration (NOAA) operates the Fisheries Finance Program, a direct government loan program that provides long term financing for the cost of construction or reconstruction of fishing vessels, shoreside fishery facilities, aquaculture facilities, and individual fishing quotas in the Northwest Halibut/Sablefish and Alaskan Crab Fisheries. To be eligible for this benefit program, an applicant must be an aquaculture operator or fisherman and a U.S. citizen. They must also meet all of the following:

- Have good credit and earnings record, net worth, and liquidity behind the project, and
- The project must be fully secured with their assets, including personal guarantees (non-recourse credit is not available), and
- Have at least a three-year history of owning or operating the fisheries project that will be the subject of the proposed application, or a three-year history owning or operating a comparable project.

Application information is required to determine loan eligibility pursuant to 50 CFR part 253 and to determine the type and amount of financial assistance available to the applicant. Applicants are required to submit NOAA FORM 88-1, and supporting financial documents. An annual financial statement is required from the recipients to monitor the financial status of the loan. Small stylistic changes have been made to the NOAA FORM 88-1 to make the form easier for the applicant to understand and to fill electronically, but the information collected is not changed.
